

**Tax change
from 18 to 20%
Micros 9700**

Changing the tax is made in two stages

- 1) Change of name and value of tax by 20% in POS Configurator.
- 2) Change of the name and amount of tax by 20% in the fiscal registrar at the station.

Do not create new tax, just change the value of the tax and its name!

Needs to change:

EMC -> Configurator -> System Information -> Tax Table и Tax Classes

It is necessary to open the Tax Table and change the name in the Tax Collected column as well as the percentage value and save the changes.

The second stage is the introduction of changes to the stations directly into the settings of the Fiscal Registrar.

The best option is to call a specialist company that serves your ECR for making changes to the tax rate.
